

SPT

LINEAR FIXTURES

Linear Architectural Lighting

The SPT series light features a 30% up-light and a 70% downlight, ideal for office space to ensure a uniformly lit working space. These fixtures can be mounted in a continuous row seamlessly. The SPT also features the selectable CCT capabilities enabling the end user to set up their environment to the right ambiance.

SYSTEM WARRANTY - 5 YEARS

Eralux will warrant defective drivers, LEDs and boards for 5 years from the date of purchase. This warranty is valid only if the fixture is installed and used as per installation guides and specifications. If a defect is present, Eralux will send drivers and boards at no fee with a thorough replacement instructions along with instructions on the return of the defective parts back to Eralux.

LUMEN MAINTENANCE – L85 at 50,000 hours

Rated for 85% initial lumen output at 50,000 hours of operation, operated at 25°C ambient temperature; per guidelines published by the Illuminating Engineering Society (IES).

"Not all product variations listed on this page are DLC qualified with the LUNA designation. Visit https://qpl.designlights.org/ to confirm qualification."

	Gun powder finish RAL 7011	-1DIM ****	Power cord – 120-347V with 5-inch Canopy

CAUTION: If there are multiple fixtures connected to the same 0-10V dimming line, a 0-10V controller must be considered to enable consistent dimming across the fixtures. Failure to do so will lead to inconsistent dimming and behaviors in the fixtures. Single switch is not recommended for controlling multiple fixtures simultaneously.

Each fixture comes standard with 2x 6FT suspension wires

- * Default CCT setting is 3500K but can be changed upon request before shipping.
- ** LDE1 option requires color selection if not the default CCT, 3500K.
- *** EMBB option available in 120-277V only.

**** 1DIM available only in 120-277V, it works for 4,5,6,8 FT

Maximum of 300 Wattages powered by 1 electrical drop

BLD-YTXXD-XXX LED Emergency Driver is UL listed for field and factory installation that allows the same LED fixture to be used for both normal and emergency operation. In the event of a power failure, the emergency driver switches to emergency mode and operates the fixture for 90 minutes. This module will operate a LED array load at 8W or 15W with constant power at a rated output voltage of 30-60 VDC. The constant power design of BLD-YTXXD-XXX maintains the output wattage to the LED array, providing consistent illumination for the entire emergency runtime. Its slim shape is ideal for use in linear LED lighting fixtures.

OVERVIEW

DIRECT AND INDIRECT LIGHT

The SPT Series provides both uplight and downlight enhancing your project space.

FINISH

ERALUX anti-glare white and black colorways reduce object glare and provide an elegant finish. Both are standard finishes.

CONTINUOUS MOUNTING

Seamless in both appearance and light emitting when joined together for continuous runs.

COLOR SELECTABLE

Easily removable fixture top exposes the DIP switch to change between 3 CCT variations from warm to cool light.

ACCESSORIES

4FT suspension cables come standard with fixture purchase. Multiple accessories such as canopy cover kits, and mounting bracket kits are available.
