

LOKI POST LIGHT

OUTDOOR PRODUCTS

Post Light

The LOKI POST LIGHT is ideal for both security and to enhance your space decoratively whether the application be a garden, parking lot, walkway or even a park. The smooth twin strut design provide not only stability but also an aesthetic look. The POST TOP LIGHT is designed for outdoor use as an efficient solution to your outdoor project needs. It provides direct downlight to comply with new industry standards and regulations. LOKI has a high output efficiency up to 150lm/w and selectable CCT and power, as well as the tool-less maintenance features, allowing extraordinary design flexibility for different application scenarios. The Dark LOKI comes with a pre-installed shield.

ORDERING CODE	AE-OD-ST40	-060	-	-	-	-

OPERATING & ELECTRICAL

INPUT VOLTAGE	120-347Vac, 50/60Hz
POWER FACTOR	>0.9
DIMMING	0-10 dimming
TOTAL HARMONIC DISTORTION (THD)	<20%

PERFORMANCE

LUMENS PER WATT	150 LPW at 70CRI
POWER CONSUMPTION	60/45/30/18W
DISTRIBUTION	Type 5 (150x150°)
EPA	1.15ft ² /0.11m ²

MECHANICAL & HOUSING

HOUSING	Aluminum alloy
LENS	Tempered glass ensures high efficiency light output for a clean, evenly illuminated surface with minimal glare. High transmittance polycarbonate optical lens allowing for a smooth, diffused light pattern.
FINISH	Black (RAL9005) Silver
POWER SUPPLY	Factory wired electronic LED driver
LED BOARD	LED3030

APPLICATION CONDITION

AMBIENT TEMPERATURE RANGE	-30 °C to 50°C
Protection	IP66, IK08
SURGE PROTECTION	4kV line-line, 6kV line-earth

COMPATIBLE MOUNTING

MOUNTING	60mm diameter pole mount with twin/single arm Surface mount Gooseneck mount Surface mount Slip fitter Direct mount
----------	---

WARRANTY

SYSTEM WARRANTY – 5 YEARS

Eralux will warrant defective drivers, LEDs and boards for 5 years from the date of purchase. This warranty is valid only if the fixture is installed and used as per installation guides and specifications. If a defect is present, Eralux will send drivers and boards at no fee with a thorough replacement instructions along with instructions on the return of the defective parts back to Eralux.

LUMEN MAINTENANCE – L90 at 43,000 hours

Rated for 90% initial lumen output at 43,000 hours of operation, operated at 25°C ambient temperature; per guidelines published by the Illuminating Engineering Society (IES). (L90 at 43,000 hours)

MOUNTING BRACKETS

TWIN ARM

For more artistic and modern look, you can choose the Twin arm mounting option. This choice can be installed in the middle of two walkways or at an intersection.

The twin arm can be installed on 2.36-inch pole.

SINGLE ARM

The single arm gives more futuristic and unique look. This choice can be installed on the side of walkways.

The single arm can be installed on 2.36-inch pole.

MOUNTING BRACKETS

SUSPENDED

Loki can also be suspended by a 3/4 inch pole.

GOOSENECK MOUNT

Another mounting option is the Gooseneck mount on 2.36-inch pole as shown in the image.

SURFACE MOUNT

Loki can be surface mount in outdoor applications.

Drilling distance:

MOUNTING BRACKETS

SLIPFITTER

Using the adjustable slip fitter, it can be installed on a top post, or side entry mount of a 2.48-inch diameter. The slip fitter allows you to rotate the fixture 180 degree.

DIRECT BRACKET FOR WALL MOUNT

The direct bracket for Loki can be installed on wall, 2.91-inches square pole, and 3-inches round pole

Accessories

Motion sensor (ANT-9)

- The light switches on at 100% when there is movement detected in a selected range
- Light dims for a stand-by time after the hold time finishes.
- The light can stay on at dimming level in dark

Photocell

- It controls the fixture to turn on when there is no nature light, and off when there is daylight.

Dark Loki

- Dark Loki comes with the dark shield.
- Dark Loki is not power switchable, it comes with only 60W, and 3000K CCT.

Compliant with Dark Sky requirements:

- Restrict the amount of upward-directed light
- Avoid glare
- Avoid over-lighting
- Utilize dimming and other appropriate lighting controls
- Minimize short-wavelength (bluish) light in the nighttime environment (reduce light pollution).

LUMEN ESTIMATE

Lumen output varies based on CCT and CRI. An estimate of lumen output of the various CCT/CRI combinations, use correction factors as per table below:

LUMEN ESTIMATE ADJUSTMENT FACTORS			
CCT	3000K	4000k	5000k
NORMAL (70CRI)	0.94	0.97	1

OVERVIEW

CONTEMPORARY DESIGN

Contemporary, architectural designed smooth housing without exposed screws present an aesthetic look.

Available in seven different mounting options; single, double arm, suspended, gooseneck, surface mount, direct mount and with slip fitter.

HIGH FLEXIBILITY & HIGH EFFICIENCY

3 CCT (3000/4000/5000K) and 4 Power (60/45/30/18 Watts) adjustable by a DIP switch, with 130 lumen per watt, ranging from 2340 to 7800 lumens that could fulfill various projects.

INTEGRATED HEAT SINK

Innovative thermal management design by incorporating the heat sink into the fixture's housing. Fins increase heat dissipation providing lasting driver lifetime.

EASY MAINTENANCE

No tools necessary to open the fixture, also allowing the automatic disconnect of power for effortless, safe access and simple electrical testing or maintenance operations.

ANTI-CORROSION FINISH

Strong anti-corrosion performance with superior dual coat finish, passed >2000H salt spray test.

DarkSky APPROVED

Compliant with DarkSky requirements. Minimizes glare while reducing trespass and skyglow.
