SLIMA FIRE

LED COMMERCIAL DOWNLIGHT

Recessed Downlight

The **SLIMA Fire** Series LED downlight is the ideal recessed downlight for any retrofit or new construction project. The spring-action housing clips facilitates the installation process for any power option. The SLIMA Fire downlights has a selectable CCT switch enabling to change the color projection from 2700K to 5000K, offering an unparalleled level of flexibility. What makes such fixture unique is the capability of resisting fire.

OPERATING & ELECTRICAL	
INPUT VOLTAGE	120V
POWER FACTOR	0.9
TOTAL HARMONIC DISTORTION(THD)	<20%

APPLICATION CONDITION						
AMBIENT TEMPERATURE RANGE	-20 °C to 45°C					
PROTECTION	Wet & Fire rated; IC rated					

COMPATIBLE MOUNTING

	New construction or retrofit.
MOUNTING	Mounted with stainless steel
	spring-action housing clips

WARRANTY

SYSTEM WARRANTY – 5 YEARS

Eralux will warrant defective drivers, LEDs and boards for 5 years from the date of purchase. This warranty is valid only if the fixture is installed and used as per installation guides and specifications. If a defect is present, Eralux will send drivers and boards at no fee with a thorough replacement instructions along with instructions on the return of the defective parts back to Eralux.

LUMEN MAINTENANCE – L70 at 50,000 hours

Rated for 70% initial lumen output at 50,000 hours of operation, operated at 25°C ambient temperature; per guidelines published by the Illuminating Engineering Society (IES)

CUT- HOLE DIMENSIONS FOR INSTALLATION (in inches)

Three layers of gypsum board

Install three layers of gypsum board between the fixture and the J-box. This is an important step in the installation procedure to reach 120 minutes of fire protection. Refer to the installation instruction for more details.

EMERGENCY LED DRIVER (BLD-HMXXD-YYY)

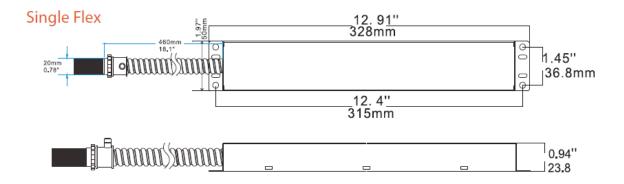

BLD-HM8D-YYY

BLD-HM25D-YYY

OUTPUT POWER : 8 WATTS OUTPUT POWER : 25 WATTS

BLD-HMXXD-YYY series LED Emergency Driver is UL listed for field and factory installation that allows the same LED fixture to be used for both normal and emergency operation. In the event of a power failure, the emergency driver switches to emergency mode and operates the existing. Fixture to 90 minutes. The unit contains a battery, charge, and converter circuit in a single enclosure. This module will operate an LED array load at 6-25W with constant power at a rated output voltage of 170VDC. The constant power design of BLD-HMXXD-YYY maintains the output wattage to LED array, providing consistent illumination for entire emergency runtime. Ideal for use with most 0-10V dimmable indoor commercial LED lighting fixtures, such as LED flat panel, troffer, downlight and suspension mounting LED linear strip lights, etc.

OVERVIEW

ULTRA-THIN PROFILE

The Fire Slim recessed downlight has a full thickness of just 1" allowing it to be used in a variety of application where fixture size and weight plays a decisive role.

SELECTABLE CCT

With a simple switch, the CCT can be changed to 2700K, 3000K, 3500K, 4000K or 5000K, offering an unparalleled level of flexibility.

The fixture's housing expands when exposed to heat, preventing fire to expand throughout the ceiling. It lasts for 120 minutes.

EASY INSTALLATION

Fixture comes standard with junction box allowing for excellent cable management reducing installation errors and potential maintenance, facilitating installation.
