

Linear Architectural Lighting

The SPS series is a revolutionary compact product with the ability to adjust lumen output and offers a variety of uplight and downlight options. It even offers the unique option of 100% uplight. Whether its pendant mount or wall mount, the installation process is simple and will result in an elegant lighting solution.

WARRANTY

SYSTEM WARRANTY – 5 YEARS

Eralux will warrant defective drivers, LEDs and boards for 5 years from the date of purchase. This warranty is valid only if the fixture is installed and used as per installation guides and specifications. If a defect is present, Eralux will send drivers and boards at no fee with a thorough replacement instructions along with instructions on the return of the defective parts back to Eralux.

LUMEN MAINTENANCE – L85 at 50,000 hours

Rated for 85% initial lumen output at 50,000 hours of operation, operated at 25°C ambient temperature; per guidelines published by the Illuminating Engineering Society (IES).

CAUTION: If there are multiple fixtures connected to the same 0-10V dimming line, a 0-10V controller must be considered to enable consistent dimming across the fixtures. Failure to do so will lead to inconsistent dimming and behaviors in the fixtures. Single switch is not recommended for controlling multiple fixtures simultaneously.

1DIM available only in 120-277V, it works for 3,4,5,6,8 FT

Each fixture comes standard with 2x 8FT suspension cables

Maximum of 300 Wattages powered by 1 electrical drop

50, 60 or 100% up light is not CCT Switchable

ACCESSORIES (Continued)

Ordered separately, field installed

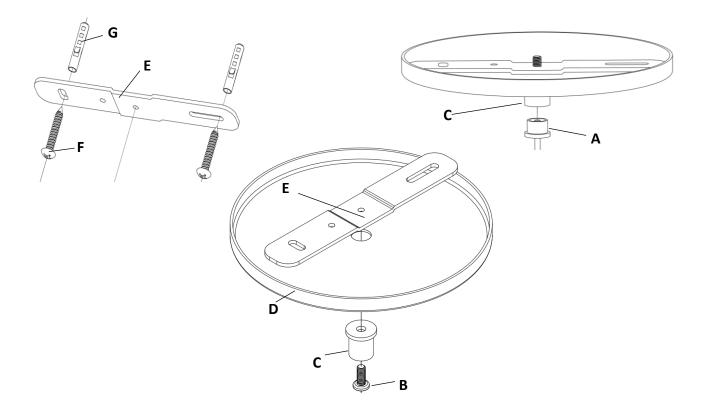

BLD-YTXXD-XXX LED Emergency Driver is UL listed for field and factory installation that allows the same LED fixture to be used for both normal and emergency operation. In the event of a power failure, the emergency driver switches to emergency mode and operates the fixture for 90 minutes. This module will operate a LED array load at 8W or 15W with constant power at a rated output voltage of 30-60 VDC. The constant power design of BLD-YTXXD-XXX maintains the output wattage to the LED array, providing consistent illumination for the entire emergency runtime. Its slim shape is ideal for use in linear LED lighting fixtures.

CANOPY ELITE MOUNTING STEPS

- 1. Screw the bracket (E) to the junction box using (F) & (G)
- 2. Connect the canopy to the bracket by screwing (C) & (D) to (E) using (B)
- 3. Connect the suspension cable to the canopy via screwing (A) to (C).

LUMEN ESTIMATE

Lumen output varies based on CCT and CRI. An estimate of lumen output of the various CCT/CRI combinations, use correction factors as per table below:

| LUMEN ESTIMATE ADJUSTMENT FACTORS | | | | | | |
|-----------------------------------|-------|-------|-------|-------|--|--|
| CCT | 3000K | 3500K | 4000K | 5000K | | |
| PREMIUM (90CRI) | 0.94 | 0.97 | 1 | 1.03 | | |

OVERVIEW

Ø

Line

DIRECT AND INDIRECT LIGHT

The Spinel Series provides both uplight and downlight enhancing your project space.

COLOR SELECTABLE

Easily removable fixture top exposes the DIP switch to change between 3 CCT variations from warm to cool light.

CONTINUOUS MOUNTING

Seamless in both appearance and light when joined for continuous runs.

FINISH

ERALUX anti-glare white and black colorways reduce object glare and provide an elegant finish. Both are standard finishes.

ACCESSORIES

6FT suspension cables come standard with fixture purchase. Multiple accessories available such as canopy cover kits and mounting bracket kits.
