

MOONRAKER

eralux®

LINEAR LED LIGHT

Wrap Around Light | 2' & 4'

The MoonRaker series is an affordable, energy-efficient linear strip light available in 2' and 4' lengths. Designed for surface mounting or suspension. It offers over 110 LPW efficacy, a wide 120-347V range, and easy maintenance with snap-lock access. With adjustable light output and CCT options provides flexibility to suit various environment. The MoonRaker combines efficiency, versatility and easy maintenance.

Application: Industrial | Commercial | Office | Warehouse | Retail Stores | Parking.

PRODUCT FEATURES

PRODUCT CERTIFICATIONS

Design Lights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org/QPL to confirm which versions are qualified" [page 6](#)

SYSTEM WARRANTY – 5 YEARS

Eralux will warrant defective drivers, LEDs and boards for 5 years from the date of purchase. This warranty is valid only if the fixture is installed and used as per installation guides and specifications. If a defect is present, Eralux will send drivers and boards at no fee with a thorough replacement instructions along with instructions on the return of the defective parts back to Eralux.

LUMEN MAINTENANCE – L75 at 100,000 hours

Rated for 75% initial lumen output at 100,000 hours of operation, operated at 25°C ambient temperature; per guidelines published by the Illuminating Engineering Society (IES).

Fixture Family	Length Power	CRI CCT	Voltage	Control	Mounting

CAUTION

If there are multiple fixtures connected to the same 0-10V dimming line, a 0-10V controller must be considered to enable consistent dimming across the fixtures. Failure to do so will lead to inconsistent dimming and behaviors in the fixtures. Single switch is not recommended for controlling multiple fixtures simultaneously.

Sensitivity

The sensitivity can be adjusted with four options 20%, 50%, 75% and 100% using switches 1 and 2

Hold Time

The hold time can be 10 seconds, 1, 5, or 15 minutes using the switches 3 and 4

Light-control

The response threshold ranges from 10 to 50 lux, adjustable with switches 5 and 6.

Stand-by Light level

The standby light level ranges from 0 to 50%, adjustable with switches 7 and 8.

Stand-by Time

The standby time ranges from +∞ to 60 minutes, adjustable with switches 9 and 10.

LUMEN ESTIMATE

Lumen output varies based on CCT and CRI. An estimate of lumen output of the various CCT/CRI combinations, use correction factors as per table below:

LUMEN ESTIMATE ADJUSTMENT FACTORS

CCT	3500K	4000K	5000K
80CRI	0.97	1	1.03

LINEAR LED LIGHT

Wrap Around Light | 2' & 4'

OVERVIEW

Innovative Design

- Extruded aluminum housing for better heat dissipation.
- Highly durable polycarbonate and high transmittance lens.

Accessories

- Suspension kit
- Motion sensor

Motion Sensor

Multiple Options

- Two standard length available: 2 and 4ft.
- Three CCT switchable and power tunable.
- Black & white finishes.

Mountings Available

- Suspended
- Surface mount
